

Internal Controls over Payment Cards

Continuing Professional Education
North Carolina Office of the State Controller*

Date:	October 13, 2015 10:00am – 11:30am
Location:	Office of the State Controller and Live Webinar
Objective:	To gain an understanding of the risks and control requirements associated with payment cards.
Content:	As the impact of cybersecurity incidents continues to rise, organizations and agencies are increasingly being pressured to demonstrate implementation of effective security controls to protect critical consumer data. Focused exclusively on payment card data, the Payment Card Industry (PCI) has continued to evolve its security frameworks and compliance requirements to address current trends and threats associated with payment card data. This presentation will provide attendees with an understanding of the origin and evolution of the PCI Data Security Standard, current trends and risks in the payment industry, and an overview of the requirements in the PCI DSS framework.
Instructors:	Alex Douds Senior Manager Dixon Hughes Goodman LLP Rodney Murray Principal Dixon Hughes Goodman LLP
CPE Credit Offered:	1.5 hours
Materials:	Will be provided in advance
Teaching Method:	Lecture
Prerequisites:	None
Advance Preparation:	None
Level:	Basic
