

Web Travel Groups and Routes in the FRED System

Purpose: To set up groups and routes that will be used for Web Travel in the FRED system.

Security Access Requirement: You must be setup as a Route Administrator for your department. To request access to the system, contact your department's Access Request Coordinator.

Prerequisites: None.

Find Help: Contact your department's Route Administrator. If you are the Route Administrator, call 919-962-HELP and the issue will be routed appropriately.

Sign in to Web Travel

- Log in to [ConnectCarolina](#) using your Onyen and password.
- Select Finance > WebTravel from the left menu

Subsystem: Add to Department

Choose "Add to Dept" from Subsystem section of the menu.

1. **Select Department** - Your department should be the default.
2. **Click "Go" button.**  This will take you to the "Department Subsystems" page, where subsystems are linked to the selected department.

Department Subsystems

1.	Department: Enter: <input type="text"/>	Or Select: 213100 - Finance Commun and Training	▼
2.	Click button to retrieve Subsystems linked to the specified Department:		

3. **Find the subsystem** that you want to make available to the department in the "Add Subsystems" table below the "Existing Subsystems" table.
4. **Check Box** for "Add as User".

5. Click "Update" button.

Existing Subsystems:

Department Subsystem	Default Route Choice	Email Preference	Delete
Web Travel (as User)	Use Default ▼	Allow ▼	<input type="checkbox"/>

Add New Subsystems:

No new subsystems available

Set Default Route Choice

- 1. Choose Default Route.** This is the route choice that creators can select. You can choose to automatically put the document on one default route, or allow the user to select the desired route from a list. However, even if you choose the select from list option, there must always be one route that is selected to be default so that routing on the fly may happen. Designating the default route is done via the Route Modify screen.
- 2. Choose Email Preference.** You can select to "Allow", which would send an email to the Primary approver when a document is in their inbox for approval. Or you can choose to "Disallow", which will not send an email. Backup approvers do not receive an email.
- 3. Click "Update" button.**

Create a New Group

Choose "Create" from Groups section of the menu.

- 1. Enter Group Name,** which must be unique. Try not to be subsystem specific if this is a group of people who will be approving documents from multiple subsystems. You may change the name of the group at any time if you decide to change it.
- 2. Select Department.** This is the department that will own the group. Your department number is selected by default, but you can create groups for any department that rolls up to your department on the UNC Organization database.

3. Click **“Create” button.**  This will create the group, and take you to the Group Details page, where you will assign members and subsystems to the group.

Groups

Create Group:

1.	Enter Group Name:	<input type="text" value="Test Group"/>
2.	Department:	Enter: <input type="text"/> Or Select: 213100 - Finance Commun and Training ▼
3.	Click button to create group and proceed to Group Details: 	

Group Details Page

On this page, you create / modify the membership and subsystem details associated with a group. A group must have at least one primary member and one subsystem to be considered Valid. Note that in FRS2, Web Travel is the only subsystem available to campus. Only approvers are listed in the groups. You can create multiple groups for a department.

6.	Click button to modify group on Group Details page:			

Result: The system displays the [Group details page](#), where you can change the approvers listed in the group.

Approvers Who Move to Another Department

1. If an approver who is listed in the group has moved to another department, a yellow warning appears next to that person's name. That individual will NOT be able to successfully approve documents for this Group. The FRED Admin will need to remove them and possibly re-add them using their current department in the Add New Members drop-down.
2. Clicking on the icon will generate message to advise the FRED admin that the person is no longer with the original department number. The FRED admin can then delete the approver and, if needed, re-add.

Help

1. **Enter route name**, which must be unique.
2. **Select Department**. This is the department that will own the route. Your department number is selected by default, but you can create routes for any department that rolls up to your department on the UNC Organization database.
3. **Please wait...**for the list of subsystems used by this department to load into the next dropdown box.
4. **Select Subsystem**, which will be the source of documents that use this route.
5. **Please wait...**for the Route Type Codes determined by this subsystem to load.
6. **Select Route Type Code**. This is the type of route that this route should use. For Users of a subsystem, the only choice will be "Normal." If you are the Owner of a subsystem, it will contain the other business office route types that were specified during Subsystem creation.
7. **Select Sharing Option**, which determines what other departments are allowed to use this route. You can choose to share this route with your own department only, which any department in your rollup structure, or with all FRED users.
8. **Select Ordering Option**, which determines how documents will travel on this route, in either an Ordered or Unordered way.
9. **Check the set as default route box**, only if you want this route to be the default route that documents will use. There must a default route for Web Travel for routing on the fly and for documents that may be created by other departments. If the select from list option is chosen in the departmental set up, then the user will still be able to choose from your list of available routes for that subsystem.

10. Click “Create” button.  This will take you to the Route Details page, where you will add groups to the route. Each route must have at least one group.

Routes

Add Station using Groups from another Department

1. Enter **6 digit number** of the other department
2. Click **"Go"** button.  This will take you to another page, where you will add as many groups from the other department as you wish.
3. Now you are on the **"Route Details: Other Department's Groups"** page. Please follow the next set of instructions below.
 - a. **Select group.** These are all the groups in the other department.
 - b. **Select position.** This lets you put the new station in any place along the route. If you do not make a selection, the station will be added onto the end.
 - c. Click **"Add"** button.  This will add the station to your route, and you will remain on this page.
 - d. Repeat steps 1-3 on this page until you have added all the groups from the other department that you need.

- e. Click **“Route Details”** button,  only when you are finished adding groups from the other department. You will return to the Route Details page, where you were building the route initially.

Change Position of Station

- 1. Click **up / down arrows**.  Up / down arrows have been provided to make modifications to route order easier. They will move a station one stop in either direction.

Delete Station

- 1. Click **“Delete”** icon.  This removes the station entirely from the route. You will not be able to delete a stop/station if a document is in someone’s inbox on that station.

Add Next Route

- 1. Enter **6 digit number** of the next route’s owning department. You may add only one route onto this one, but it can be from your department or another.
- 2. Click **“Go”** button.  This will take you to another page, where you will select the route.
- 3. Now you are on the **“Route Details: Add Next Route”** page. Please follow the next set of instructions below.
 - a. **Select route**. These are all the routes in the department.
 - b. Click **“Add”** button.  This will add the selected route (as the final station) to the end of your route, and return you to the main “Route Details” page.

Add Transfer Overrides

- 1. **Choose the station** at which you want to create a Transfer Override.
- 2. Click **quantity** of Transfer Overrides listed in the table for that station already (for example, 0)
- 3. Now you are on the **“Route Details: Transfer Overrides”** page.

Approval Conditions

“**Approval conditions**” are used to determine if documents should stop at a station or not. This depends on the rules set on that station. For example, you want Group X to approve documents only when they are for less than \$100. So, on Group X’s station, you create an Approval Condition with the rule “If FRS dollar amount is less than 100” so that Group X is bypassed unless the rule is true. Then, if a document for \$500 came through, Group X would not approve it since the condition was false.

Add Approval Conditions

1. **Choose the station** at which you want to create an Approval Condition
2. **Click quantity** of Approval Conditions listed in the table for that station already (for example, 0)
3. **Now you are on the “Route Details: Approval Conditions” page.**

Create a New Approval Condition

1. **Click “Add condition” button.**  This will take you to the Route Details: Approval Conditions: Rules” page.

Modify an Approval Condition

1. **Click “Modify” icon.**  This will take you to the “Route Details: Approval Conditions: Rules” page, where the Approval Condition was created.

Delete an Approval Condition

1. **Click “Delete” icon.**  Once you click the button, the Approval Condition and its rules will be removed.

Switch Order

1. **Click up/down arrows.**   These arrows move the Approval Condition one step in either direction.

 [Route Details](#)

(This button always returns you to the main Route Details page.)

Approval Condition Rules

If you have 2 or more approval conditions under one group, the formula will be Rule 1 AND Rule 2. There is no limit to the number of approval conditions.

Add Rules

1. **Select Override Criteria.**
2. **Select Comparison.**
3. **Enter Value.**
4. **Click “Add Rule” Button.** 

Delete Rules

1. **Click “Delete” icon.**  This removes the rule from the Approval Condition.

 [List Overrides](#)

Returns you to the “Route Details: Approval Conditions: page.

 [Route Details](#)

Return you to the main “Route Details” page.

Change Route Options

1. **Click existing route options** listed under the title of the page, or scroll down until you see the Route Options table.
2. **Change any of the 4 options** in the Route Options table.
3. **Click “Modify” button.**  This will save any changes you made to the Route Options.

List Group Members

1. **Click Name** of group in the route table. A small window will open with a list of the members in that group.

Transfer Overrides

This page lists all Transfer Overrides on this station. Each Transfer Override is made up of a set of rules – if the rules apply, documents will be transferred to the overriding route instead of delivered to this station.

Create a New Transfer Override

1. **Click “Add Transfer Override” button.**  This will take you to the “Route Details: Transfer Overrides: Rules” page, where you will select the overriding route and add rules to create the Transfer Override.

Modify a Transfer Override

1. **Click “Modify” icon.**  This will take you to the “Route Details: Transfer Overrides: Rules” page, where the Transfer Override was created.

Delete a Transfer Override

1. **Click “Delete” icon.**  Once you click the button, the Transfer Override and its rules will be removed.

Switch Order

1. **Click up/down arrows.**   These arrows move the Transfer Override one step in either direction. The Transfer Overrides will be evaluated in this order.

Route Details

Click [Route Details](#) to return to the main [Route Details](#) page.

Transfer Overrides: Rules

A single Transfer Override may have many rules. All of the rules must be true for the transfer to occur.

Select Overriding Route

1. **Select route from dropdown box.** The overriding route is the one this route will transfer to. Since you can only transfer to a route with the same ordering option (i.e. Unordered to Unordered, and Ordered to Ordered), only the routes that are the same will be in the dropdown box.

Selecting Overriding Route from another Department

1. **Find the footnote** at the bottom of the screen.
2. **Enter department number** of the other department that owns route you want to select.
3. **Click "Go" button**  at the bottom of the screen.
4. **The other department's route will fill the original "Overriding Route" dropdown box.**
Only the routes from that department that are the same ordering option will appear.
5. **Select the route you want.**

Add Rules

1. **Select Override Criteria.**
2. **Select Comparison**
 - <= - Less than or equal to
 - < - Less than
 - = - Equal to
 - <> - Not equal to
 - >= - Greater than or equal to
 - > - Greater than
 - = (text) - Equals text data (i.e. a last name)
3. **Enter Value.**
4. **Click "Add Rule" button.** 

Delete Rules

1. **Click "Delete" icon.**  This removes the rule from the Transfer Override.

 [List Overrides](#)

Returns you to the "Route Details: Transfer Overrides" page.

 [Route Details](#)

Returns you to the main "Route Details" page.

Order and Procedure

1. Transfer Overrides will take precedence over Approval Conditions that are on the same Station.
2. All Transfer Overrides or Approval Conditions will be applied in the order they are listed here.
3. Stations with Approval Conditions will be skipped unless those Conditions are met.
