## 3. Using Delegates & Travel Assistants

The Concur system allows you to create Delegates and Travel Assistants who can act on your behalf. A Delegate is a user who is granted permission to act on behalf of another user to perform tasks such as creating or approving requests and expense reports. You can create the following types of delegates:

**Approval Delegate** - An Approval Delegate can assist in reviewing or approving Requests and Expense Reports on your behalf. Approval Delegates can use the Preview feature to send an email notification to the user when a request or report is ready for their approval.

**Personal Delegate** - A personal delegate can assist in preparing Requests and Expense Reports on your behalf. Additional permissions may include the ability to view receipt images and/or receive copies of emails. However, Personal Delegates cannot submit reports on your behalf. Personal Delegates can use the Notify feature to send an email notification to the user when a Travel Request or Expense Report is ready to be submitted; or if given permission, can submit a Travel Request on behalf of the traveler.

Delegates may be managed and assigned through the Request Delegates link on the Profile Options page or by following the steps below to access the Expense Delegates link. Regardless of the navigation path chosen, Delegates will have the same access to both systems.

- Book flight, rental car, hotel, etc.
- View upcoming trips.
- Manage trips actions such as changing or cancelling a trip for a traveler.
- View/Filter travelers by name or date of traveler.
- View trip segment information without having to access the full itinerary.
- Access the airline's check-in webpage to check the Traveler in for a flight.
- Access TSA wait time information.
- Add another travel arranger for a traveler.
- Discontinue their own arranger association with a traveler.

If you have been designated as a Travel Assistant or Travel Arrangers, follow these steps to manage and administer travel for another user.

1. Click the **Profile** icon.
2. Click the dropdown for **Acting as other user**, under **Act As** select *A Delegate for another user who has granted you this permission*. Then begin entering the name of the employee you want to act on their behalf.
3. Click on the employee you wish to act on their behalf.

- Click the **Switch** button.

**Result:** The Profile menu will display “Acting as” and shows the name you selected. You are now officially working on behalf of that person.

**Note:** After signing in to Act as a Delegate you will need to access the Travel Arranger View page to manage travel for other users.

- Click the **Home drop-down** and then select **Travel** from the menu.
- Click the **Arrangers** tab.

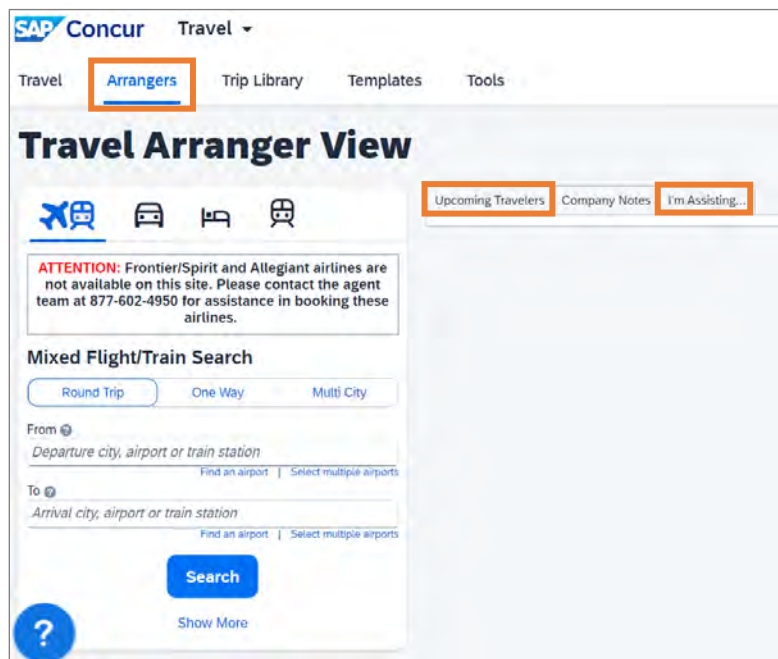

**Result:** You will be brought to the Travel Arrangers View page and can begin managing travel on behalf of another user.

# Stopping Working as a Travel Assistant

Follow these steps to stop working as a Travel Assistant:

1. Click the **Acting as** link.
2. Select **Act As Myself**.
3. Click **Switch**.

## 4. Understanding Approval Workflows

When a Travel Request or Expense Report is submitted it will go through an approval workflow. This process ensures that prior to a Travel Request or Expense Report being processed it has been reviewed and approved by designated department approvers or Business Officers. The default approval workflow in Concur is assigned based on the Department approval workflow in ConnectCarolina. Changes made in ConnectCarolina will be imported into Concur on a nightly basis. These changes will not update the workflow of requests/reports which have already been submitted but will affect the workflow of new submissions or re-submissions.

### Adding a Default Approver to Your Approval Workflow

Default approvers can be added to a user's approval workflows via their user profile.

Default approvers can be added:

- only in Request,
- only in Expense,
- the same in both systems,
- or be different between the two systems, if necessary.

Default approvers will always be the first to approve in the Workflow before the request/report routes to the approvers of the assigned chartfield string(s). Follow these steps to add a default approver to the user's profile:

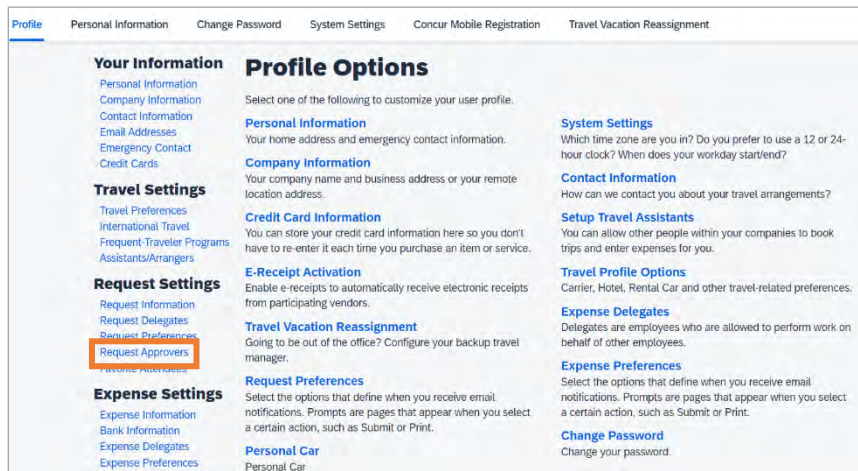

1. Click the **Profile** icon.
2. Click the **Profile Settings** link.

**Result:** You will be directed to the Profile Options page.

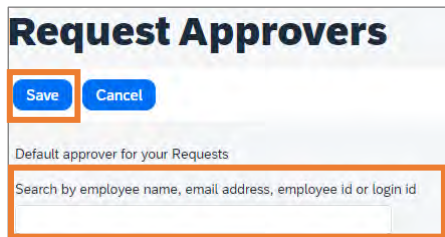

## Adding Default Request Approvers

3. Click the **Request Approvers** link.

The screenshot shows the Concur Profile page. The left sidebar contains a list of links under various categories. The 'Request Approvers' link is highlighted with an orange box. The main content area is titled 'Profile Options' and contains several sections: 'Personal Information', 'Company Information', 'Credit Card Information', 'E-Receipt Activation', 'Travel Vacation Reassignment', 'Request Preferences', 'System Settings', 'Contact Information', 'Setup Travel Assistants', 'Travel Profile Options', 'Expense Delegates', 'Expense Preferences', and 'Change Password'.

4. Search for the employee you want to add as a default approver.
5. Click on the user you want to add.
6. Click the **Save** button.

The screenshot shows the 'Request Approvers' modal. At the top, there are 'Save' and 'Cancel' buttons. Below them, the text 'Default approver for your Requests' is displayed. A search field is present with the placeholder text 'Search by employee name, email address, employee id or login id'. The 'Save' button and the search field are highlighted with orange boxes.

## Adding Default Expense Approvers

7. Click the **Expense Approvers** link.

The screenshot shows the Concur Profile page with a navigation bar at the top containing links: Profile, Personal Information, Change Password, System Settings, Concur Mobile Registration, and Travel Vacation Reassignment. The main content area is divided into two columns. The left column has a sidebar with categories: Your Information, Travel Settings, Request Settings, and Expense Settings. Under Expense Settings, the 'Expense Approvers' link is highlighted with an orange box. The right column is titled 'Profile Options' and contains several sections: Personal Information, Company Information, Credit Card Information, E-Receipt Activation, Travel Vacation Reassignment, Request Preferences, Personal Car, and Concur Mobile Registration. Each section has a brief description of its function.

8. Search for the employee you want to add as a default approver.
9. Click on the user you want to add.
10. Click the **Save** button.

The screenshot shows the 'Expense Approvers' modal window. At the top, there is a title bar with the text 'Expense Approvers'. Below the title bar, there are two buttons: 'Save' and 'Cancel'. The main content area has the text 'Default approver for your expense reports.' followed by a search bar. The search bar has a placeholder text: 'Search by employee name, email address, employee id or login id'. The search bar is highlighted with an orange box.

## 5. Understanding Expense Types

Expense Types/Account Codes are hard-coded in the Concur system and users do not have the ability to change them. When an Expense Type is selected, it automatically pulls the assigned account code. For example, if you choose a trip type of “International” on the Report Header, and then enter an expense line for Airfare (whether out-of-pocket, T&E Card, or directed-billed), the system automatically assigns the account code of 526310 for the International Airfare to the expense. Also, end-users will not see the account codes when reviewing the chartfield string and allocating expenses.

### Listing of Expense Types

## Using the Documentation Only Expense Type

The Documentation Only option from the Expense Type Category should be used only when you need to attach additional backup documentation. Documentation submitted with this expense type will have an expense amount of \$0.00.

## 6. Creating and Submitting Travel Requests

In advance of all overnight University business travel, you must create and submit a travel request prior to making any travel arrangements. Pre-authorization is also required for day travel which includes airfare. You can also manage travel requests and cancel any request.

Delegates may prepare the travel request and then use the Notify feature to alert the traveler when the request is ready to be submitted or you will be able to submit the Travel Request if the Traveler gave you that permission.

### Creating a New Travel Request

Follow these steps to create and submit a travel request:

1. From the **Home drop-down**, click **Requests**.

2. Click the **Create New Request** button.

3. Enter the required (noted by red asterisks) and necessary optional fields.

The screenshot displays the 'Create New Request' form. It contains several input fields and dropdown menus. Fields marked with a red asterisk (\*) are required. These include: 'Request Name', 'Request/Trip Start Date', 'Request/Trip End Date', 'Destination City', 'Does this trip include personal travel?', 'Business Unit', 'Dept ID', and 'Source'. Other fields include 'Traveler Type' (set to 'Faculty/Staff'), 'Request/Trip Purpose' (set to 'None Selected'), 'Request/Trip Type' (set to 'None Selected'), 'Destination Country', 'Dates of personal travel', 'Is this request/trip federally funded?' (set to 'None Selected'), and 'Additional Information' (set to '0/500'). The 'Business Unit' field is populated with '(UNCCH) UNC Chapel Hill'. At the bottom right, there are 'Cancel' and 'Create Request' buttons.

#### Notes:

- The Traveler Type, Business Unit, and Department ID fields will automatically populate based on your ONYEN and user profile.
  - It is considered best practice to include the main destination of the trip and the first day of travel for the request name. For example (Nashville, TN – 08/08/2020).
4. Click the **Create Request** button.

**Result:** A Request ID number will be generated, and you can add any anticipated travel expenses. The Request ID number replaces the CABS Number when using the Direct-Billing option in Concur Travel or booking directly with the University's travel agency.

## Adding Personal Travel (if applicable)

If the travel request will include personal travel it should be documented when creating and submitting the request.

5. Select **Yes**, from the Does this trip include personal travel dropdown.
6. Enter the dates of the personal travel.

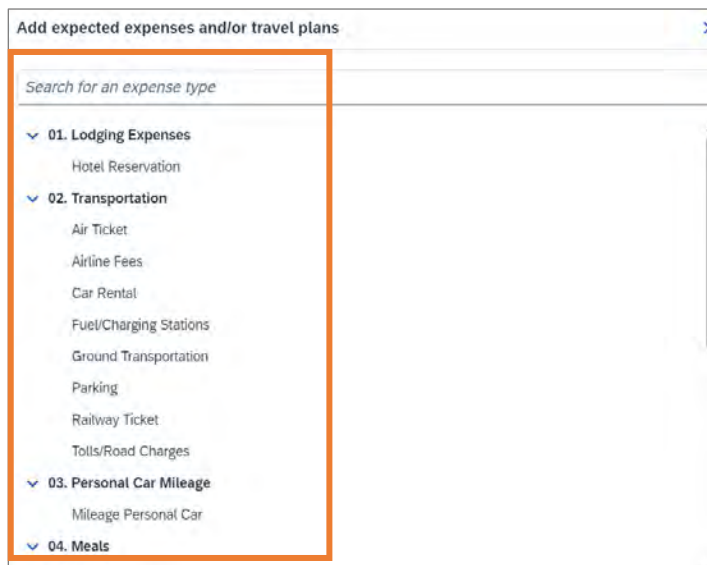

## Adding Expenses to a Travel Request

# 7. Creating International Travel Requests

## Export Control

When you create a travel request that includes international travel, you may need approval from the Export Control Office. Export Control laws and regulations are complex and carry significant criminal and civil liability for both the traveler and the university. If you have questions as to how or when the regulations apply, please reach out directly to the [Export Control Program](#) or visit our [website](#).

## Global Travel

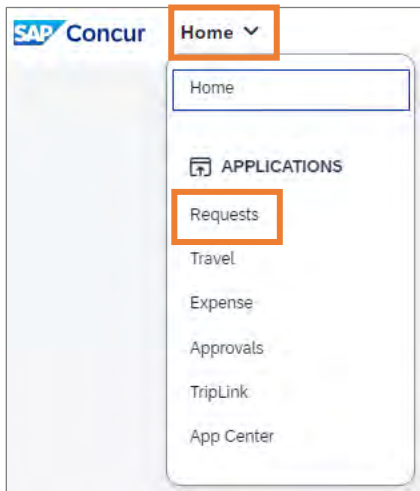

UNC-Chapel Hill Global encourages safe, culturally respectful global travel by University students, faculty, and staff. To make those travels as successful and safe as possible, the University has established travel policies to help protect members of the UNC-Chapel Hill community.

Requirements for international travel are outlined on the University's [Travel and Global Operations for Travel Requirements and Policy](#) webpage. Travel to certain countries may be subject to additional restrictions or review. For guidance on planning your trip, visit the University's [Travel and Global Operations Preparing for International Travel](#) webpage.

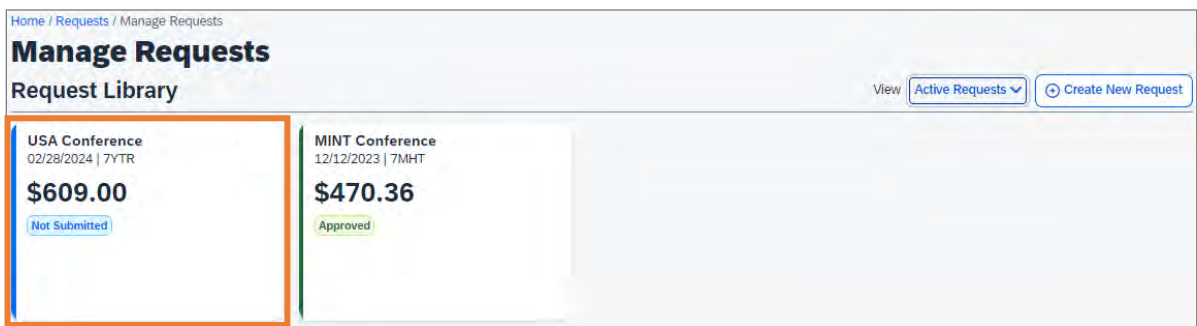

## 8. Managing a Travel Request

You can make edits and changes to a travel request. Depending on the type of change you are needing to make, follow these steps to manage a travel request:

1. Click the **Home dropdown** and then **Requests**.

2. Click the travel request you want to manage.

**Result:** The details of the travel request will appear.

# Copying a Travel Request

Copying a Travel Request allows you to quickly create the same Travel Request for another trip.

**Note:** If the original request has attachments, you must attach those documents again to the copied Travel Request. Also, if the original request has workflow modifications, you must adjust the workflow modification to the copied Travel Request. Follow these steps to copy a travel request:

1. Follow steps 1 to 2 from [Managing a Travel Request](#).
2. Click **More Actions** and then the **Copy Request** link.

# 10. Making Reservations & Booking Travel

Booking a Trip on Concur Travel is similar to how you would book a personal trip online. The Concur Travel element of the system allows users to book travel that can include Flight/Train, Rental Car, and/or Hotel. Users of the system can book travel themselves as the Traveler or utilize a designated Travel Assistant/Arranger to make the booking and travel reservations.

## Booking a Flight

If a Traveler needs to make reservations for a trip that includes a flight/train, the booking process will always begin with booking a flight/train, regardless if lodging, and car rental are needed as well. Underneath is the 'Mixed Flight/Train Search' section, which contains three buttons: 'Round Trip', 'One Way', and 'Multi City'. These three buttons are enclosed in an orange rectangular box. Below the buttons are two input fields: 'From' with the placeholder 'Departure city, airport or train station' and 'To' with the placeholder 'Arrival city, airport or train station'. Each field has a small link that says 'Find an airport' and a link that says 'Select multiple airports'. At the bottom of the form is a blue 'Search' button and a 'Show More' link.

3. In the **From** and **To** fields, enter the cities for travel.

**Note:** When you enter a city, airport name, or airport code, the system will automatically search for a match. You can also use the Find an airport link or select multiple airport links as needed.

4. In the **Depart** and **Return** fields, select the appropriate dates and times.

5. If you need a hotel and/or car rental mark the **Pick-up/Drop-off car at airport** and/or **Find a Hotel**. Otherwise, continue to the next step.

When engaging in overnight travel, the Concur system can add the appropriate federal meal per diem rates to your report based on the destination as well as departure and return dates of travel.

# Moving Expenses from One Report to Another or Back to Available Expenses

The ability to move an expense from one report to another is helpful when an expense transaction has been assigned to the wrong expense report. Follow these steps to move an expense to another expense report:

1. Open a current Expense Report that contains the transaction you want to move.
2. Select the checkbox next to the transaction(s) you want to move.

**Note:** Select the uppermost check box to select all transactions.

3. Click the **Move to** button.
4. Select the name of the appropriate report or select a **New Report** from the dropdown.

**Result:** Depending on the action you select; one of two results will occur:

- If you select an existing report, the report opens, and the selected transaction(s) are moved to the report.
- If you select **New Report**, the Create New Report page appears. Enter the report information to create the new report.

## Combining Expenses

Transactions listed in the Available Expense section can be combined to reduce duplicate expenses. This feature is helpful when you have a combination of T&E Card transactions, E-Receipts, and expenses created using the Mobile app. Duplicate expenses must be combined to prevent duplication and resolve seemingly outstanding expenses. Follow these steps to combine expenses:

1. From the Concur homepage, click the **Available Expenses** tile.
2. In the Available Expenses section, mark the checkbox beside each expense that needs to be combined.
3. Click the **Combine Expenses** button.

## Attaching Receipts

Most expenses will require a receipt. The Concur system will alert you when a required receipt is missing and when a Missing Receipt Declaration is not allowed. You can review [Procedure 1501.7 on Travel Expenses and Reimbursements](#) to learn more.

Receipts can be added when creating a new expense or can be added from the main report page by clicking the receipt “+” icon on the expense line. The steps noted in this section provide instructions on how to attach a receipt to an expense. Follow these steps to attach a receipt image to an expense:

1. Select an expense entry and open it in the Details view.
2. Click **Attach Receipt Image** tile.

3. Click **Upload New Receipt** or the **Attach** link on a receipt that has been uploaded previously.

**Note:** If selecting the **Upload Receipt Image** tile, follow the prompts on the screen to select the receipt to upload. Also, the system accepts file attachments in PDF, JPG, HTML, TIF or TIFF formats.

## Missing Receipt Declaration

A Missing Receipt Declaration should be completed when a receipt is lost or misplaced, and the expense requires a receipt. In these instances, you can digitally sign a

declaration that you can submit, instead of the actual imaged receipts. Using a receipt declaration allows you to submit your expense report in a timely manner and comply with [Procedure 1501.7 on Travel Expenses and Reimbursements](#) on receipt submittal.

**Important:** A delegate cannot submit a Missing Receipt Declaration on your behalf.

Also, Missing Receipt Declarations are not allowable for the following expense types:

- Lodging
- Airfare
- Car Rental
- Conference Registration

## Submitting a Missing Receipt Declaration

Follow these steps to submit a missing receipt declaration:

1. Open the expense report that has the expense missing a receipt.
2. Click the **Manage Receipts** link dropdown arrow.
3. Select **Missing Receipt Declaration**.

The screenshot shows an expense report titled "Copy: MINT Conference \$322.26". The report status is "Not Submitted" and the report number is "KJ623N". The "Manage Receipts" dropdown menu is open, showing options: "Manage Attachments", "View Receipts in New Window", and "Missing Receipt Declaration" (which is highlighted with an orange box). ## Converting Foreign Currency Transactions

When your travel takes you to different countries, out-of-pocket expenses will need to be converted from the original foreign currency to US Dollars (USD). When you create a new out-of-pocket expense in a currency other than US Dollars, you may utilize the City of Purchase field to automatically populate the local foreign currency.

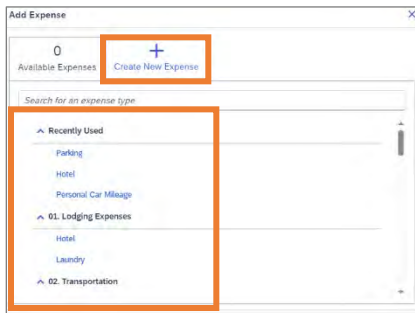

The exchange rate comes from the Oanda Corporation, a foreign exchange company. The system will look up the Average Daily Rate from Oanda based on the date and city of your expense, and automatically convert the transaction amount to USD. For T&E card transactions, Bank of America will convert transactions from the foreign currency to US Dollars. Follow these steps to convert out-of-pocket foreign currency transactions:

1. Open a current Expense Report or Create a New Report.
2. Click the **Add Expense** button.

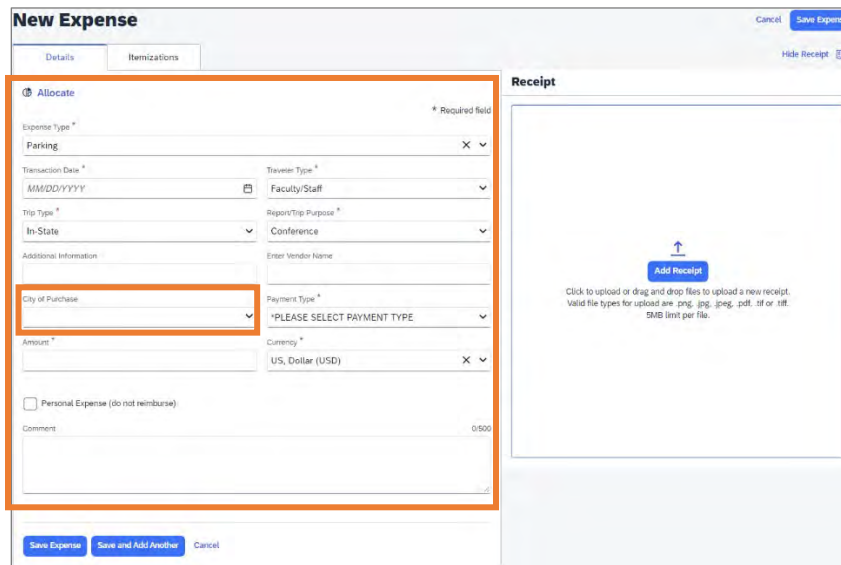

3. Click the **Create New Expense** tab or **Available Expense** tab if you have enabled E-Receipts.

4. Search for or select the appropriate expense type from the list.

5. Enter all the appropriate information, including the Transaction Date and Amount.
6. In the **City of Purchase** field, select the appropriate location from the dropdown menu.

**Result:** The Currency field will automatically update to the local currency of the City of Purchase selected. The Conversion Rate will populate from the Oanda database and the expense will be converted to US Dollars.

7. Click the **Save Expense** button.

**Result:** The expense amount appears in both the foreign currency and in the standard reimbursement currency.

## Managing Cash Advances

If a cash advance was received for a trip, it must be reconciled in full on the expense report for that trip. If you do not have enough out-of-pocket expenses to offset the cash

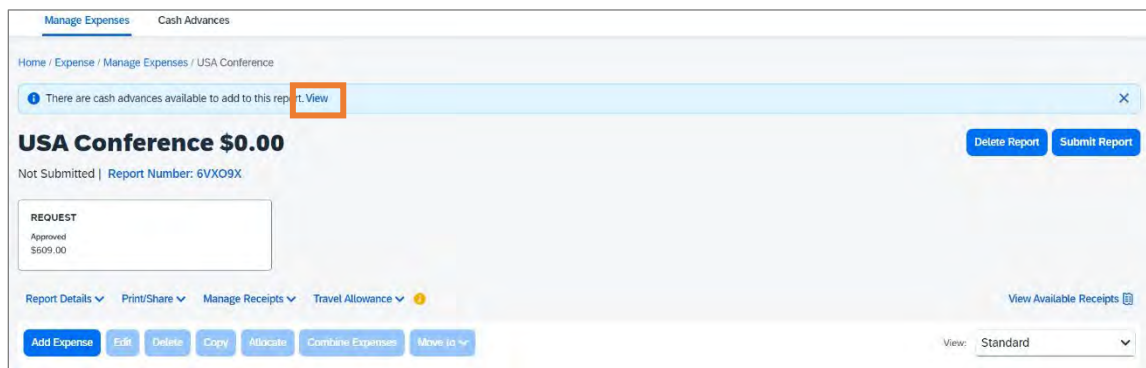

advance, any unused portion must be remitted back to the Travel Services Office prior to submitting your Expense Report. For additional information, please review [Procedure 1501.2 for Travel Advances](#).

To ensure that a cash advance is attached to your expense report, please follow the steps for [Creating a New Expense Report from a Travel Request](#).

## Adding a Cash Advance to an Existing Expense Report

If the cash advance is not successfully added to your Expense Report, you will receive an alert that there are cash advances available to add to this report. Follow these steps to add a cash advance to an existing Expense Report:

1. Open the Expense Report that contains the alert.
2. Click the **View** link.

**Result:** The Cash Advances window will appear.

3. Click the **Add** button.

An Expense Report cannot be submitted which has a Remaining Cash Advance Balance. If you did not remit the unused portion of the Cash Advance back to the Travel Services Office, you must add a Cash Advance Return Expense to your report. When submitting an Expense Report with a remaining Cash Advance, you will receive an alert that Cash Advances must be entirely utilized or returned. Follow these steps to add a Cash Advance Return Expense:

1. Click the **Close** button to close the alert or open the Expense Report that contains the alert.

2. Click the **View Allocation** link.

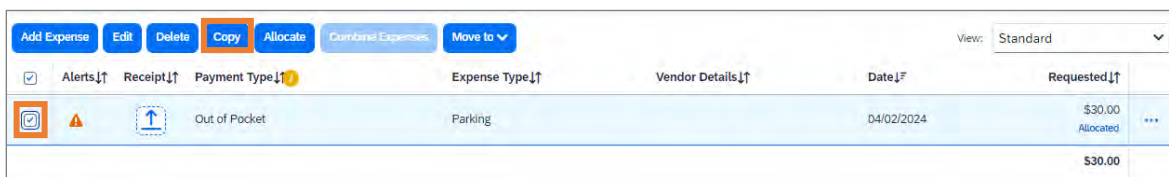

**Result:** The Allocate pop-up window will appear and you can make changes to the allocation.

## Copying an Expense

2. Select the expense you want to copy by marking the checkbox.
3. Click the **Copy** button.

						Allocated	

**Result:** The new expense is added to the Expense list and the original expense date is advanced by one day. Also, all allocations, attendees, and expense-level comments from the original expense are copied to the new expense.

**Note:** Credit card information, e-receipts, mobile entry information, and travel segments from the original expense are not copied to the new expense. This type of information is generally associated with only one expense, so it is not copied to the new expense. If the Payment Type of the original expense is a T&E card, then the Payment Type of the new expense is editable using the dropdown list.

# 14. Itemizing Expenses and Attendees

You should itemize expenses to account for receipts that include both business and personal expenses or to ensure that each of your expenses is accounted for correctly. In addition, some transactions (business meals and lodging expenses) require receipts to be itemized. Review [Procedure 1501.7 on Travel Expenses and Reimbursements](#) to learn what expenses require receipt itemization.

## Itemizing Nightly Lodging Expenses

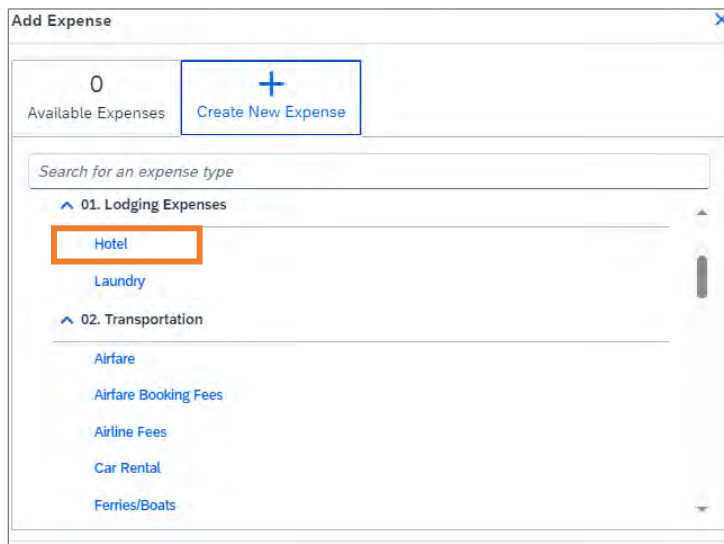

A hotel bill typically contains a variety of expenses including room fees, taxes, parking, valet, telephone charges, and/or personal items. You must itemize these expenses to correctly account for all expenditures. In the lodging expense form, Concur Expense calculates the number of nights based on the Check-in and Check-out Dates. Follow these steps to itemize nightly lodging expenses:

1. Open a current Expense Report or Create a New Report.
2. Click the **Add Expense** button.

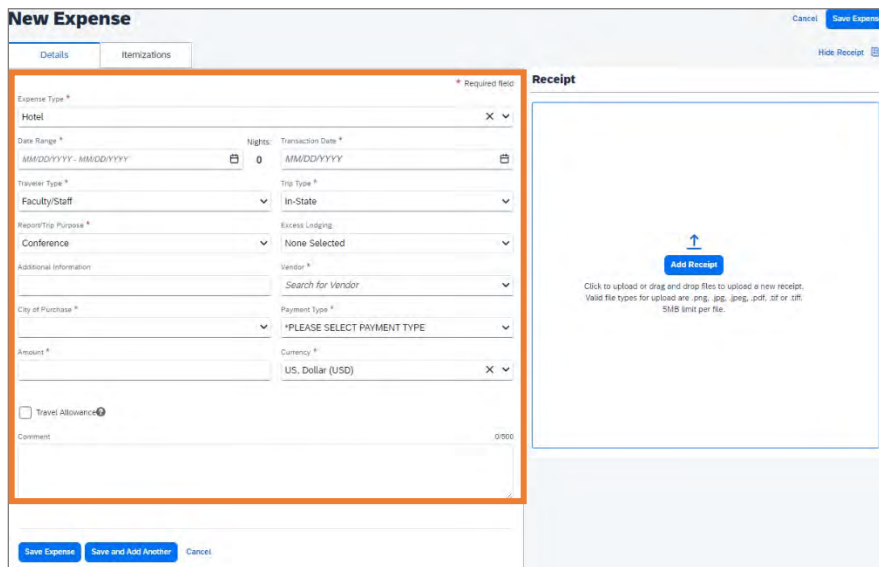

3. Click the **Create New Expense** tab or **Available Expense** tab to access T&E Card Transactions and E-Receipts.

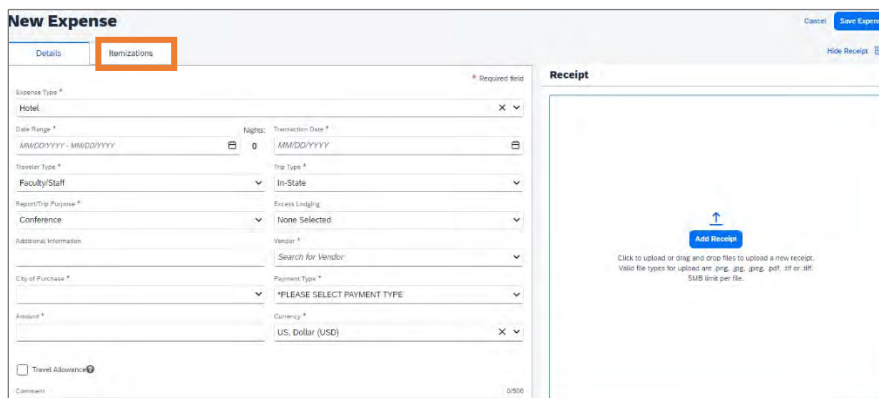

4. Select the **Hotel** expense type from Lodging Expenses listings.

5. Complete all the required (noted by red asterisks) and necessary optional fields.

6. Click the **Itemization** tab.

## 22. Frequently Asked Questions

### Approvers, Delegates, and Workflows

**Q: How soon can a delegate receive approvals after they have been added as an approval delegate?**

**A:** Delegates will have immediate access to the approver que to which they have been assigned a delegate for, and they would only receive email notifications for new requests/reports once they have been submitted.

**Q: Will approval delegates receive copies of approval emails?**

**A:** Delegates can receive approval emails as long as the delegator has turned on the permissions setting for them to receive approval messages.

**Q: If someone from another department travels on my department's funds, will both departments be included in the approval workflow?**

**A:** If the traveler has a default approver on their profile, requests/reports will always flow to them first regardless of the funding source of travel. The additional approval workflow will depend on the chartfield string of the request/report. When the request/report is submitted, the request/report will route to the approvers of the chartfield string assigned. If the chartfield string is updated during the approval process, the workflow will update to include any other necessary approvers.

**Q: If the primary approver (as designated in ConnectCarolina) travels, will their travel request and expense report be auto approved or will their delegates be able to review/approve.**

**A:** Department Approvers (as assigned in ConnectCarolina) must assign their supervisor as the Default Approver on their profile to ensure proper approval and workflow routing. If a traveler submits a report against the same department ID for

which they are an approver in ConnectCarolina, it will not go to them or their delegates for approval.

**Q: Will approvers and delegates be able to review actions that are submitted for approval prior to them being added to their delegate or approval role?**

**A:** Delegates have access to anything that is outstanding in the Approver's queue, and access to look at anything that has been previously approved by using search and filter options. Approvers only have access to requests/reports that are newly submitted or resubmitted for approval after they were added as an Approver.

**Q: Can a submitter and approver be the same individual when submitting a Report for reimbursement?**

**A:** No one can submit a report on behalf of another end user, and no one can approve their own submissions. All end users must submit their own Reports for reimbursement. If a Delegate submits a travel request on behalf of another user, they will not be able to approve that submission. The system will automatically skip them in the workflow.

**Q: How many people can you delegate to in Concur?**

**A:** There is no limit to the number of delegates you can create.

## **Air Travel, Car Rental, and Hotel**

**Q: Why do I always see information about Basic Economy Fares when searching for Airfare?**

**A:** The low cost of Basic Economy Fares can look very appealing, but we need to ensure that all travelers understand the restrictive nature of these fares before booking. While the university allows for the purchase of Basic Economy Fares, we do not encourage travelers to utilize them.

**Q: What happens if I book a flight that is flagged as “out of policy?”**

**A:** You will be able to book this flight but will be asked to select an out of policy reason from a dropdown. You may also provide additional details to explain the out-of-policy selection. This information will be reviewed during the expense report process to ensure that the traveler had an allowable exception to book out of policy.

**Q: Should I purchase additional insurance for my rental vehicle?**

**A:** If your vehicle will only be driven in the United States, you must decline the optional insurance offered by the rental car company. Insurance is provided for all university employees by the State of North Carolina and cannot be reimbursed. When renting a vehicle for travel outside of the United States, you should pay for the optional insurances offered. These expenses can be paid for on the T&E Card or submitted for reimbursement.

**Q: Why am I seeing the Hotel Per Diem Locations page?**

**A:** The University utilizes the federal lodging rates to determine when excess lodging is incurred. Lodging should be secured at no more than 150% of the federal lodging rate for their destination. If lodging is secured at a higher rate, the user will have to provide a business reason for excess lodging on their expense report.

## **Finance and ConnectCarolina**

**Q: If a traveler does not require CABS, what happens if a traveler takes a trip and incurs all expenses then submits a Report for reimbursement?**

**A:** Concur Request is the process in which travelers request pre-trip authorization, the State requires all overnight travel to be pre-approved. An Expense Report must be submitted in Concur Expense for reimbursement of business travel related expenses.

**Q: Can a user add a chartfield string to Concur System?**

**A:** No, all chartfields are automatically loaded into Concur and updated nightly.

**Q: Will a budget error in Concur stop a reimbursement from being issued?**

**A:** No, transactions will go to CBM then a journal entry will be created. If a budget error occurs, the transaction will be charged to the default travel chartfield string as designated by the department.

## **Personal Meals and Per Diems**

**Q: Can reimbursed meals be reduced to a lesser amount than the per diem?**

**A:** Per diem reimbursement amounts are hard-coded into the system. However, if the traveler wished to receive less than the full per diem, the individual should submit fewer meals for reimbursement.

**Q: Are we allowed meal reimbursement for day trips?**

**A:** No, personal meal per diem is only allowed when the travel requires an overnight stay.

## **Policy, Documentation, and Forms**

**Q: Were historical travel documents and information transferred to Concur?**

**A:** No data or information from any travel prior to the go live date will be transferred to Concur.

**Q: Is the Travel Acknowledgment form still required?**

**A:** No, since the traveler will be submitting their own expense reports the Travel Acknowledgement form is no longer required.

## **Miscellaneous**

**Q: Do I have to submit a travel request in advance to travel that does not include overnight travel?**

**A:** No, a travel request is only required for overnight travel or for day-travel which includes airfare.

**Q: Do student employees have access to use Concur?**

**A:** All faculty, staff, and some student employees will automatically have access to Concur. For students who are not automatically loaded a formal process for requesting and reimbursing student travel is being developed.

**Q: How early can travel requests be submitted?**

**A:** Travel requests can be submitted as far in advance as necessary. However, expenses paid for out-of-pocket will only be reimbursed after the trip is completed.

**Q: Is there any required training prior to gaining access to the Concur system?**

**A:** No, but online training and additional support is available; please review the section [\*Resources for Help and Support.\*](#)
