Benefits for UNC System travelers:

**Complimentary Priority Access**

Business travel is seamless for corporate travelers with convenient access to Priority check-in, Priority security and Priority Group 4 boarding to get where you need to go faster.

**Complimentary preferred seats**

Corporate travelers have complimentary access to preferred seats on aa.com or on the American mobile app. This benefit allows travelers to book seats that are otherwise reserved for our most frequent travelers, such as window and aisle locations.

**Downgrade protection prioritization**

American Airlines knows that air travel can be unpredictable at times. In the unlikely event we are unable to accommodate all passengers on a given flight, corporate travelers receive enhanced prioritization to maintain their cabin selection and make their journey as easy as possible.

**Reaccommodation Prioritization**

Corporate travelers now receive higher priority for reaccommodation during irregular operations. When the unexpected happens, corporate travelers are prioritized with automatic reaccommodation to a new flight.
