

Add Prepaid Cards to Your Mobile Wallet

All USD and CAD Mastercard® Prepaid Cards and CAD Visa® Prepaid Cards can be added to Apple Pay, Samsung Pay, and Google Pay mobile wallets. With this feature, you can:

- Access prepaid cards on your smartphone
- Easily use prepaid cards in stores

Here's How It Works*:

STEP 1

Open the mobile wallet app on your device.

STEP 2

Add the card details via camera or manual entry.

STEP 3

Agree to the issuer terms and conditions.

Once you complete these three steps, the card will appear in your mobile wallet and be ready for use.

*An authentication step is required. Users must have a US or Canadian mobile phone number in their card profile.
